

KEEP SPACE FOR PEACE

International Week of Protest to Stop the Militarization of Space

OCTOBER 3-10, 2009

Modern warfare, such as the U.S. occupation of Afghanistan and attacks on Pakistan, uses Unmanned Aerial Vehicles (UAVs) and GPS-guided bombs. Directed by space satellites, and remotely controlled far from the battlefield, these weapons are responsible for massive civilian casualties.

In the 2003 “shock and awe” attack on Iraq, 70% of the weapons used by the Pentagon were directed to their targets by space technology. Our children are being trained through video games today to be the remote killers of tomorrow. Death at a distance is still blood on our hands.

We in the Global Network say it’s time to open our eyes and STOP the military’s use of space for war on Earth. It is time to preserve space for peace and to end war.

**Cosponsored by: Women’s International League for Peace & Freedom •
World March for Peace & Non-Violence • International Network for the Abolition of Foreign Military Bases**

Yes, we plan to organize an activity. It will be at _____
_____ (location) and will be held on _____ (date).

Send me ___ (qty) *Keep Space for Peace Week* posters (\$3 each or five for \$12).

Enclosed is a donation toward your Peace in Space campaign.

Please add my name to your mailing list.

Organization: _____

Name: _____

Address: _____

City: _____ State: _____ Zip: _____

Country: _____ Email: _____
