Why a World March?

To end the threat of nuclear war
– which would be the greatest catastrophe in history –
a dead end.

To give a voice to the majority of world citizens, who want peace.

To bring about:

- Worldwide Nuclear Disarmament
- Withdrawal of all invading troops from occupied territories
- Signing of Non-Aggression Treaties among nations
- Renunciation of War by all governments

To expose all other forms of violence (economic, racial, sexual, religious, psychological etc...) and provide a way for all who suffer such violence to be heard.

To create global awareness of the urgent need for Peace - as has already happened with environmental issues.

**To Nurture
a Worldwide
Moral Consciousness
That Rejects
Violence**

world without wars
and without violence
